- **Definition / Description**
- A fungus (pl.: fungi or funguses) is any member of the group of eukaryotic organisms that includes microorganisms such as yeasts and molds, as well as the more familiar mushrooms.

## Submission Deadline

Sunday November 23

Review of images and results at the December meeting

*All submissions will be done via the club website.*

*The link and password will be emailed to club members.*

### LIMITS:

- 2 entries per club member
- 2000px on the longest side
- Any form of image manipulation is allowed as long as the results look natural.
- Hand of Man is allowed.
- Any replacement imagery must be the maker's work

Images will be judged on – **Composition, Technical, & Impact**
